## Modul 1

### 1. Mengenal Switch

## 2. Peer to Peer

The screenshot displays the Cisco Packet Tracer interface. The top window shows a logical network diagram with two PCs, PC0 and PC1, connected by a dashed line. PC0 is labeled with IP address 192.168.1.1 and PC1 with 192.168.1.2. The interface includes a menu bar (File, Edit, Options, View, Tools, Extensions, Help), a toolbar, and a status bar showing 'Time: 00:13:45', 'Power Cycle Devices', 'Fast Forward Time', and 'Realtime'.

A second window, titled 'PC0', is open, showing the 'Config' tab. A 'Command Prompt' window is overlaid on the PC0 configuration, displaying the following output:

```
